QUALITY

Tajfun NCM ensures the quality of products by monitoring all production steps.

LABORATORY CONTROLS

Chemical analyses
Monitoring of mechanical properties

A-TEST - DIN EN 10204 3.1 B

Laboratory and non-destructive tests are conducted in
a certified laboratory

NON-DESTRUCTIVE TESTING

X-ray inspections
Magnetic inspections
Penetrant inspections

FINAL CONTROL

(After machining)
Measurement protocol
Dimension checks with a 3D device - as needed

Tajfun NCM collaborates with various Slovenian and Croatian foundries, offering the possibility of complete production from conceptual design to the final product:

YEARS OF EXPERIENCE, PROFESSIONAL QUALIFICATION, and EXCELLENT QUALITY of castings enable us to meet even the most demanding customers. The main principles of the company are adapting to customer requirements and ensuring the quality of the services provided.

PRODUCTS

Together with our business partners, we develop a wide range of products, which include:

MANUFACTURE AND PROCESSING OF CASTINGS:

CHEMICAL AND FOOD INDUSTRY
Housings, pumps, rotors, meat grinding containers

HEAT-RESISTANT STEELS

WEAR-RESISTANT STEELS
Rotors, parts for concrete pumps

NODULAR CAST IRON
Machine parts, agricultural components

MANUFACTURE OF PRODUCTS FROM:

DRAWN MATERIALS

ROLLED MATERIALS
Pistons, pins

FORGINGS
Wheels, crane wheels

WELDMENTS
Brackets, housings
